

Library Services: Evidence Updates

Torbay and South Devon 
NHS Foundation Trust

What is it: a service to let you know whenever high impact publications in your subject area are published

Why use it: to see the latest high-level evidence in your field

How it works: we tailor your Evidence Updates profile to suit your needs. For example, you could receive everything published on obstetrics or limit down to just receive things related to gestational diabetes

The content: current policy documents and the latest summarised evidence so that you will not be inundated with primary research articles

**You must have an NHS OpenAthens account to receive evidence updates and full-text articles. Register at <https://openathens.nice.org.uk/> for access*

Name		Department	
Job title & role	(this will help us understand your evidence update needs)		
Email		Telephone	
Work address	(your primary/main location)		

I understand and agree to my data being held in accordance with the Data Protection Act (1998) on knowledgeShare.

I agree that my contact details and interests can be made visible to all members of KnowledgeShare in order to promote knowledge sharing (this is purely optional).

Please fill in the boxes below to tell us about your interests so that we can create your profile

Age Groups (tick as many as apply)	Settings (tick as many as apply)	
Adults	Hospital ward	Community
Children & adolescents	Outpatients	GP
Neonates	ED	Prehospital
